## STELLAR HAS SUCCESSFULLY RECOVERED SOFTWARE FROM HGST HARD DRIVE

Located in Coimbatore, a manufacturer and exporter of camera-based software for Automobiles, and other manufacturing industries.

Since establishment, the company is engaged in manufacturing and exporting software, and now become a leader in the field. It caters to industries all across India, especially in the subcontinent.

### CHALLENGE FACED BY THE CLIENT

The client used a 2.5" HGST hard disk drive (Model No.: HTS545050A7E) with 500GB capacity. The challenge faced by the client was that the media (HDD) running on the drive partitions on the drive were not showing up. This led to the loss of all data. On facing such a situation, the client's representative wished for a complete recovery of data and software. In fact, he required a standard HDD data recovery service.

*"I cannot use my company laptop as its hard drive has become damaged and is not showing up. I guess it is due to the bad sectors on the drive. Non-functional hard drive data recovery service instantly so that I can get back the access to my data."*

Also, the representative of the client was concerned about the privacy of the data, looking for a [data recovery service provider](#) who could ensure full proof recovery.

### STELLAR DATA RECOVERY - COIMBATORE TO THE RESCUE

In the quest for effective data recovery, the representative of the client did not only be closely located but is also an efficient and world-class HDD data recovery service across [Stellar Data Recovery-Coimbatore](#) that was in the same city where he visited our Coimbatore Service Centre with his 500GB drive instantly and effectively.

On arrival, the executive at our Service Centre lent an attentive ear to the client's concern. The representative of the client voiced out his concern that the media was not showing up because of bad sectors in it. Also, as the disk read/write heads were moving over the magnetic field of the platter into the electrical current or vice versa.

Through this, the executive became well aware of the expectations of the client. In-house professionals would successfully recover his lost document files and software.

Next, the representative gave a green nod to the experts for starting the [HDD data recovery](#). To accomplish the same, the professionals of our Stellar Data Recovery-Coimbatore started the first step.

### THE HARDCORE HDD DATA RECOVERY

As a foremost step of the [hard drive recovery process](#), a partial image of the drive was completed in 4 days. Next, the scanning process was performed on the image to find lost or deleted data got easily recovered from the found partitions.

***“The cutting-edge techniques and tools employed by experts resulted in the successful recovery of all data.”***

With this, the representative of company was intimated about the HDD recovery process. He observed that all his data was recovered. He was elated by the results.

***“Stellar Data Recovery - Coimbatore came to my rescue and recovered all my data lost. I am extremely delighted”***

He then expressed his gratitude –

***“I am thankful to Stellar Data Recovery - Coimbatore Branch who recovered my data using their software in a short span of time”***
