UNDETECTED 1TB HARD DRIVES DATA RECO

Coastal Shipping, a Kochi-based company, lost its important data stored in a hard drive. The drive has the model number MQ01ABD100, serial number X3ADPCPMT, and s

The organization used the hard drive in a Windows computer to store important files. Owing to the importance of these files, Coastal Shipping decided to get in touch with Stellar Data Recovery to recover the hard drive's data.

APPROACH TAKEN BY THE CLIENT

The client made a call at [Stellar Data Recovery Kochi](#) branch to enquire about the problem. A senior executive attended the call and attentively understood the problem faced by the client.

According to them the hard disk contained lots of vital documents and they were in a hurry to get them back. The executive comforted the client and assured for prompt recovery. After being satisfied, they came to our branch with the undetected hard drive data recovery.

STELLAR DATA RECOVERY – KOCHI AT AID

We, Stellar Data Recovery Kochi team, received the affected hard drive from the client. A technician was assigned for preliminary analysis.

The technician promptly checked the hard drive in a PC's BIOS (Basic Input/Output System) due to a firmware issue. He then fixed the issue and started the image process.

Due to the presence of large bad sectors, the expert read the image using a specialized tool to create the image. Ultimately, the complete image of the drive was successfully created.

The technician then used Stellar's proprietary data recovery software to recover the data. The recovered files and documents from the drive were thoroughly tested, and all the important data was successfully recovered.

CLIENT'S FEEDBACK

A representative of Coastal Shipping visited our Kochi branch for verification of the recovered data. The data was in perfect working state. As all the data was important official files, so the client was very satisfied with our service & process.
