

CLIENT

AN INDIVIDUAL

OVERVIEW

The client is an individual who accidentally formatted his desktop PC in order to restore Windows OS

GOALS

To recover client's data from the formatted 4 TB hard disk drive

APPROACH

The client visited Stellar Data Recovery - Hyderabad branch with his HDD for data recovery

RESULTS

Successfully recovered all data from the formatted HDD

DATA RECOVERED FROM FORMATTED HARD DRIVE

A photographer by profession, the client lost all his customers' photos and videos in an error in its operating system that forced him to restore the OS and format the hard drive on the computer.

The desktop computer was equipped with Seagate 3.5 inch 4 TB hard drive with model number ST1KBAP3501 that was sufficient to fulfill his high volume data storage need. He had snapped photographs of his customers on the desktop computer for processing.

With the concern for losing his business and reputation, the client wanted to recover his data and approached [Stellar Data Recovery Hyderabad branch](#) to salvage data from the formatted hard drive.

STELLAR DATA RECOVERY ACTS AS A SAVIOUR

We at Stellar Data Recovery - Hyderabad branch received the formatted hard drive under initial scrutiny from our experts.

According to the experts, the hard drive was in good health, but data was inaccessible due to a [hard drive formatting that resulted in loss](#) of pointers that pointed to the data.

The experts then deep scanned the entire Seagate 4 TB hard drive using Stellar Data Recovery software. The process was rather easy due to the good health of the drive but time taking over a few days to complete the drive.

The complete file structure of the drive segregated in volumes (including lost pointers) was recovered on a different empty hard drive of the same storage capacity.

All the recovered files were free from corruption and opened smoothly without any issues. We transferred the recovered data from the makeshift hard drive to the client's HDD with pre-installed software and good news to the client.

CONTENTED CLIENT

The client visited our center once again to see if everything was fine as expected. He was able to view all the videos of his customers in perfect working condition. He then thanked Stellar Data Recovery for an excellent job.
